DRAGAN **ĐORĐEVIĆ**
COMPUTER SCIENCE STUDENT

ABOUT ME

While finishing my bachelor studies in the field of Computer Science on the Faculty of Science and Mathematics, I have been using my free time for studying other technologies such as PHP, Laravel, Javascript and Java.

Participating in competitive coding challenges in teams such as game jams taught me how to work efficiently under pressure and limited time, making games in Unity, C#

I am looking forward to applying and expanding my knowledge in a professional environment where I can learn more from experienced people

EXPERIENCE

LAME JAM 23

- Implemented pathfinding, particles and visuals
- Play the game here.
- Github repository.

GLOBAL GAME JAM 2023

- Made parallax background, leveling system, spell effects
- Designed the code structure of the game
- Game page.

FULL STACK PLATFORM FOR SELLING VIDEO GAMES

- Developed a fully functioning website for selling video games
- Made in Laravel 8, Tailwind, MySQL
- You can check out the project here.

SKILLS

- PHP
- Laravel
- MVC
- HTML & CSS
- Javascript

- SQL
- Java
- Linux
- C/C++
- C#

EDUCATION

BACHELOR DEGREE IN COMPUTER SCIENCE

Faculty of Sciences and Mathematics, Niš

2019 - present

TŠ "RADE METALAC", LESKOVAC

2015 - 2019
